### **1** Writing at Rice

#### *Terrence Doody*

Allison Sarofim Distinguished Teaching Professor  
Faculty Director, Program in Writing and Communication

Since 2012, every student entering Rice has had to take a First-Year Writing-Intensive (FWIS) Seminar. This is the first writing course of any kind that Rice has required since the late 1960s, when it dropped its core curriculum, making it the only college or university in the country that did not require its students to learn to write. How could this have happened? And why are the new FWIS courses so much more than the old English 100 course? Kristine and Stephen Wallace '68 will host this event.

### **3** Reducing the Harms of Drug Abuse and Drug Policy

*William Martin*

Harry and Hazel Chavanne Professor Emeritus of Religion and Public Policy and Sociology

Policy regarding drugs, both legal and illegal and explicitly including alcohol, poses some of the most perplexing issues facing modern societies. For nearly a century, the United States has been an active proponent of the punitive prohibition of illicit drugs. Unfortunately, the War on Drugs has been largely unsuccessful; prosecution of illegal drug consumption has filled our prisons without significantly reducing crime, decreasing homelessness, preventing overdose deaths, diminishing the spread of HIV or undermining the illegal drug market. The vision of a drug-free America is unrealistic. Policies of Harm Reduction offer more promising ways to reduce the personal and societal damage of problematic drug use and of counterproductive laws. Enjoy this dinner and conversation in Liz '76 and Steve Crowell's home.
